---

Jon – there are detections of each compound in each area therefore we would like all of the compounds mapped. For now a grouping can be considered an area i.e. ETF, LPA, WPA.

Let me know if you have any questions.

Thank you  
Pat

John  
I'll take a look tonight and provide you with feedback.  
Thanks

Jon,

Attached you will find an Excel spreadsheet and an Adobe PDF file with passive soil-gas results from the recently completed PSG survey at the Wilcox Oil Company Superfund Site in Bristow, OK-Beacon Project 3476.

What compounds or groupings would you like to map?

Best Regards,

***Patti Riggs***
